- Programming language
  - C
    - Systems Programming
    - Embedded Systems
      - Frameworks
        - Arduino
    - Operating System Kernels
    - Graphics and Graphics Libraries
      - Frameworks
        - OpenGL
        - DirectX
  - C++
    - Systems Programming
    - Game Development
      - Unreal Engine
    - Embedded Systems
      - Frameworks
        - Arduino
    - Graphics and Computer Vision
      - Frameworks
        - OpenGL
        - CUDA
        - DirectX
      - Library
        - OpenCV
        - YOLO
  - C#
    - Desktop Application Development
    - Game Development
      - Unity
    - Web Development
      - Frameworks
        - ASP.NET MVC
        - ASP.NET Core
  - Java
    - Enterprise Applications
      - Frameworks
        - Spring
    - Android App Development
      - Android Studio with Android SDK
    - Backend Development
      - Frameworks
        - Spring Boot
    - Desktop Application
  - Kotlin
    - Android App Development
  - Dart
    - Mobile Applications Development
      - Frameworks
        - Flutter
        - Flutter for Web
    - Web Development
      - Frameworks
        - AngularDart
    - Server-Side Development
      - Frameworks
        - Aqueduct
        - Shelf
    - Desktop Applications
      - Frameworks
        - Flutter Desktop
  - Swift
    - IOS App Development
      - Frameworks
        - UIKit
        - SwiftUI
    - macOS App Development
      - Frameworks
        - AppKit
        - SwiftUI
  - PHP
    - Backend Development
      - Frameworks
        - Laravel
        - Symfony
        - CodeIgniter
    - Content Management Systems (CMS)
      - WordPress
  - Python
    - Data Science and Machine Learning
      - Machine Learning
        - Frameworks
          - NumPy
          - TensorFlow
      - Data Analysis
        - Library
          - NumPy
    - Web Development
      - Backend Development
        - Frameworks
          - Django
          - Flask
    - Scripting and Automation
      - Scripting / Automation
        - Library
          - Beautiful Soup
          - Scrapy
          - Requests
          - urllib3
    - GUI Applications
      - Desktop Applications
        - Library
          - Tkinter
          - Custom Tkinter
          - PyQt5
          - PySide
          - Kivy
          - KivyMD
      - Android Applications
        - Library
          - Kivy
          - KivyMD
    - Networking and Security
      - Library
        - Scapy
        - Paramiko
        - NetworkX
        - Socket
        - Netcat
        - Beautiful Soup
        - Subprocess
        - DNSPython
        - AnalyzePE
        - Yara
        - angr
        - r2pipe
        - Impacket
        - NLTK
        - Pymetasploit3
        - PyCryptodome
        - Nmap
        - Mechanize
        - urllib3
        - CloudScraper
  - Go
    - Networking & Security
      - net/http
      - golang/net
      - golang/crypto
      - gorilla/websocket
      - hashicorp/consul/api
      - spf13/viper
      - sirupsen/logrus
      - nats-io/nats.go
      - golang/netfilter
      - pires/go-proxyproto
    - Web Development
      - Gin
      - Beego
      - Iris
      - Echo
      - Fiber
  - Ruby
    - Backend Development
      - Frameworks
        - Ruby on Rails
    - Scripting and Automation
    - Networking and Security
      - Frameworks
        - Metasploit
        - Net::HTTP
        - OpenSSL
  - HTML / CSS
    - HTML
      - Web Page Layout and Structure
      - Web Forms
      - Web Accessibility
      - Interactive Web Components
      - Email Templates
      - Offline Web Applications
    - CSS
      - Styling and Design
      - Responsive Web Design
      - Web Animation and Effects
      - User Experience (UX) Design
      - Web Forms
      - Web Accessibility
      - Print Stylesheets
      - Interactive Web Components
      - Email Templates
      - Offline Web Applications
      - Library
        - Bootstrap
        - Tailwindcss
  - JavaScript / TypeScript
    - Front-End
      - Frameworks
        - React.js
        - Vue.js
        - Angular.js
        - Next.js
      - Library
        - jQuery
    - Back-End
      - Frameworks
        - Node.js
        - Express.js
    - Mobile Applications Development
      - Frameworks
        - React Native
    - Browser Extensions
  - SQL / NoSQL
    - SQL
      - Oracle Database
      - MySQL
      - Microsoft SQL Server
      - PostgreSQL
      - SQLite
    - NoSQL
      - MongoDB
      - JSON
      - XML
      - SQLite
  - PowerShell / Bash
